

Hydro-10

5 in 1 Appliance

CERTIFIED PRODUCT

Power Consumption

Sleep mode- 06 W

Water making mode- 160W

Installation

Plug and Play Device

Operational Req- Min 15C & 35% RH

Number of glasses/day

Approximately 25 to 30 glasses/day

Certified

PSQCA and SGS Lab Tested.

CE/CB and ISO 9000 globally

weight and dimension

25 kgs

1.5 feet X 0.8 Feet

Make Your Own Water

Hydronic water generators are innovative plug-and-play devices that extract water from the air, filter it, enrich it with essential minerals, and deliver instant water for your home and office. This entire process is contact-free, ensuring zero contamination. The hydro-10 water generator can produce up to 10 liters of clean drinking water daily by utilizing the humidity and temperature of the surrounding environment.

Features (5-in-1 appliance)

1. Dehumidifier
2. Air purifier
3. Water Generator
4. Water purifier
5. High tech Dispenser
6. Countertop unit
7. home and office use
8. Ambient & Cold water
9. 07 Liters of internal storage
10. up to 10 liters/ day
11. for family of 2-3 people

Product Includes
