

Hydro-100

5 in 1 Appliance

CERTIFIED PRODUCT

Power Consumption

Sleep mode- 27 W

Water making mode- 1150W approx

Installation

Plug and Play Device

Operational Req- Min 15C & 35% RH

Number of glasses/day

Approximately 240 glasses/ day

Certified

PSQCA and SGS Lab Tested

CE/CB and ISO 9000 globally

weight and dimension

85 kgs

3.96 feet X 2 Feet

Make Your Own Water

Hydronic water generators are innovative plug-and-play devices that extract water from the air around them, purify it, mineralize it, and deliver clean water instantly to your home or office. This entire process is contact-free, ensuring zero contamination. The hydro-100 water generator can generate up to 40 liters of fresh drinking water daily by utilizing the humidity and temperature of its surroundings.

Features (5-in-1 appliance)

1. Dehumidifier
2. Air purifier
3. Water Generator
4. Water purifier
5. High tech Dispenser
6. Stand alone unit
7. home and office use
8. Ambient water only
9. 56 Liters internal storage
10. upto 40 liters/ day
11. for 30-35 people

Product Includes

1. Hydro-100 Appliance
2. Set of 4 water filters
3. Set of 2 Air filters
4. Free Delivery & Installation
5. One year warranty
6. One year free service contract
