

Hydro-50

5 in 1 Appliance

CERTIFIED PRODUCT

Power Consumption

Sleep mode- 27 W
Water making mode- 810W

Installation

Plug and Play Device
Operational Req - Min 15C & 35% RH

Number of glasses/day

Approximately 120 to 140

Certified

Water Quality Tested- SGS
CE/CB and ISO 9000 globally

weight and dimension

49 kgs
3 feet X 1.5 Feet

Make Your Own Water

Hydronic water generators are innovative plug-and-play devices that extract water from the air, filter it, enrich it with essential minerals, and deliver clean water instantly to your home or office. This entire process is contactless, ensuring zero contamination. The hydro-50 water generator can produce up to 30 liters of pure drinking water daily from the surrounding air. The volume of water produced depends on the humidity and temperature of the environment.

Features (5-in-1 appliance)

1. Dehumidifier
2. Air purifier
3. Water Generator
4. Water purifier
5. High tech Dispenser
6. Stand alone unit
7. home and office use
8. Ambient and Cold water options
9. 15 Liters internal storage
10. upto 30 liters/ day
11. for family of 8-10 people

Product Includes

1. Hydro-50 Appliance
2. Set of 4 water filters
3. Set of 2 Air filters
4. Free Delivery
5. Free Installation
6. One year warranty
7. One year free service contract
